

Billetix - Source CNG File

File structure:

Fields and values are separated by a semicolon.

Field headers can be in uppercase or lowercase.

The fields are not in any particular order.

It is not necessary to display all the fields. Only one is mandatory.

The file has the extension: * .cng

The required field:

Code Barre :

No constraints. Variable-length alphanumeric

The following fields are not mandatory, but highly recommended:

Etat :

If this field is absent, the value 1 will be assigned.

- 1 - Allocated paid
- 2 - Assigned but not paid
- 3 - Cancelled and refunded
- 4 - Cancelled duplicate
- 5 – Duplicate

Tarif :

Free text. This field is essential for ticket control to distinguish between tickets purchased at a discounted rate for children. An adult will therefore not be able to pass.

Optional fields: These are all fields except those mentioned previously.

The optional fields are used to sort tickets more precisely. Therefore, filling them in is not mandatory.

All fields are strings. The content of these fields is free-form.

If the field is empty, enter an empty string (no characters).

Prix :

Format : The decimal separator must be a period, not a comma: Example for an amount of 12 Euros and 34 Cents => **12.34**
