

ZEBRA TC 26 configuration

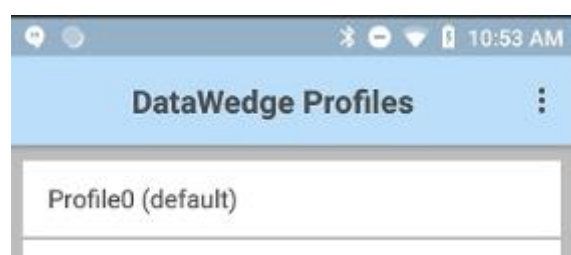

GENERAL PARAMETER (comfort):

- Disable automatic screen rotation => Swipe down
- Screen ==> Increase screen lock time (30 minutes)
- System ==> Display the time in 24-hour format
- Battery ==> Display battery level
- Clean up your home screen so that only the Chrome shortcut is displayed.

DATA WEDGE:

- Select PROFILE0

- Profile => Active
- Data Capture Plus => Disabled
- Barcode scanning => Enabled
- Hardware trigger => Activated

MENU EXIT KEY

- Key output => Activated
 - Action key character => None
- ⇒ **Enter the Keyboard Event Options Menu**
- Send characters as events => Enabled
 - Everything else => Disabled
- ⇒ **Enter Basic Data Formatting**
- Key output (first line) => Enabled
 - Send data => Enabled
 - Send the ENTER key => Activated
 - Remains => Disabled

The scan setup is complete.

ADDING CLIENT URL:

- Add Chrome to your PDA's home screen => Open the App Library and click and hold on the Google Chrome icon => drag it to the desktop
- Enable the homepage so that the client arrives directly at the access control URL when they launch CHROME > Google settings > Homepage enabled > Enter URL.
- Pre-register your login and password
- **DON'T FORGET TO PERFORM SCAN TESTS TO VERIFY THE CONFIGURATION**
